

## Fishfinder LOCATOR with Wireless Pedal and Touch-sensitive Control Panel

The Fishfinder LOCATOR with a wireless pedal and touch-sensitive control panel is a device that ensures high-performance functionality and user-friendly operation. Create the perfect equipment system for your boat, allowing you to monitor in real-time where the fish are swimming and track their movements by automatically rotating the sensor in the necessary direction. This allows you to dedicate more time to fishing and less to positioning.

### Key Advantages:

1. **Intuitive Control with Wireless Pedal and Touch-sensitive Control Panel:** Control the device with a wireless pedal or touch-sensitive control panel, offering you ample options to customize the operation according to your individual preferences and comfort requirements.
2. **Multifunctional Dynamic Wireless Pedal:** The wireless pedal provides multifunctional dynamic actions, allowing you to comfortably control fish search and tracking functions.
3. **360-degree Rotation:** The device is capable of making two full rotations in each direction, ensuring broad and effective coverage of fish detection zones.
4. **Two Automatic Operating Modes:** Choose between two automatic modes – for fish searching and tracking, adapting your fishing experience according to the situation.
5. **Adjustable Work Zone Angle:** Determine the work zone angle for each mode (30 - 360 degrees), adapting to different fishing conditions.
6. **Adjustable and Changeable Pedal Work Zone Direction:** Personalize the work zone direction for each mode, ensuring optimal control over the device's movements.
7. **Manual Control Mode with Dynamically Controlled Pedal or Control Panel:** Use manual or automatic control mode to fully control sensor movements.
8. **Night Mode:** Switch to night mode to maintain optimal visibility even in darkness.
9. **Rotation Speeds:** Maximum speed for 360 degrees – 3 seconds; minimum speed for 360 degrees – 30 seconds.
10. **Quick Installation Without Screws:** The device can be quickly and easily installed without screws, ensuring fast preparation for fishing.
11. **Unique Fixing Mechanism:** Quickly and securely lower/lift and fix the device in working or transportation positions with the unique fixing mechanism.

12. **Assembly and Disassembly Without Screws:** Assemble and disassemble the device without screws in just a few seconds for convenient storage or transportation.
13. **Compact When Disassembled:** The device is compact when disassembled, easily portable, and storable.
14. **UV-resistant Casing:** The casing is made of UV-resistant material, ensuring long-term durability against the impact of sunlight.
15. **IP68 Protection Class for Pedal and IP65 for the Device:** The wireless pedal is protected with IP68 class, guaranteeing resistance to water exposure, while the entire device has IP65 protection class.
16. **Compatibility with Well-known Fish Finding Systems:** Fishfinder LOCATOR is perfectly suited for collaboration with GARMIN PANOPTIX LIVESCOPE, HUMMINBIRD MEGA IMAGING, and LOWRANCE ACTIVE TARGET, ensuring optimal compatibility with the mentioned fish finders.
17. **Maximum Boat Speed** in Device Operating Mode up to 10 km/h.

Purchase the Fishfinder LOCATOR and expand your possibilities in fishing – comfortably, effectively, and innovatively, allowing you to dedicate more time to the fishing process!
